

North Australian Indigenous Water Rights

‘Standing together for water rights’

‘As traditional owners we have an inherent right to make decisions about cultural and natural resource management in northern Australia.....we must have a central role in the development, implementation and evaluation of policy and legislative or administrative measures that may affect us concerning water.

Recognising and enhancing Indigenous cultural and commercial rights in the ownership, management and use of water is fundamental to facilitating Indigenous economic development and reducing Indigenous disadvantage.’

A policy statement from the NAILSMA Indigenous Water Policy Group.

Darwin Parliament House on March 24th, 2010
